PROFILE SUMMARY

Results-driven **PHP / Laravel Developer** with 2 years of professional experience building enterprise-grade web applications for premier government research institutions. Hands-on expertise delivering end-to-end solutions — from tender estimation and billing automation to full office procurement workflows — for clients including **IGCAR Kalpakkam** and **The Institute of Mathematical Sciences (IMSc), Chennai**. Proficient in Laravel, Core PHP, PostgreSQL, and modern front-end technologies. Certified in Core Java and SQL. Passionate about writing clean, maintainable, and scalable code.

PROFESSIONAL EXPERIENCE

Laravel / PHP Developer

Lashron—Chennai, Tamil Nadu

May 2024 – Present (2 +Years)

Working on live, production-grade government software for two national research institutions. Responsible for full-stack development, database design, and deployment of multiple active modules.

KEY PROJECTS

1.IGCAR Kalpakkam —Civil, Electrical &Mechanical Engineering Packages

Indira Gandhi Centre for Atomic Research (IGCAR), Kalpakkam — India's premier nuclear research facility.

Tech stack: Core PHP, Laravel, PostgreSQL (pgAdmin), HTML5, CSS3, Bootstrap

Civil Section (Core PHP + PostgreSQL)

- **SOR Package:** Schedule of Rates management system enabling engineers to create, update, and query standard rates for civil works.
- **Tender Process — Estimate to Work Order:** Complete workflow automation from initial cost estimate creation through tender finalization to work order issuance.
- **Billing Software:** Comprehensive billing module covering M-Book creation, sub-abstract generation, and end-to-end bill entry and processing for civil contracts.

Electrical & Mechanical Sections (Laravel + PostgreSQL)

- **SOR Package:** Schedule of Rates system for Electrical and Mechanical division works.
- **Estimate Creation:** Automated estimation tools for electrical and mechanical project cost analysis and reporting.

FRFCF — Fast Reactor Fuel Cycle Facility (Core PHP + PostgreSQL)

- **Tender Process:** End-to-end tender management system for the FRFCF division.
- **Billing Process:** Automated billing workflow for FRFCF civil and facility contracts.

■ All IGCAR modules are live and actively used in production.

2. The Institute of Mathematical Sciences (IMSc) — Office Automation System (ERP)

IMSc, Chennai — National Institute for Research in Theoretical Sciences (Autonomous institute under DAE, Govt. of India).

Tech stack: Laravel, PostgreSQL, HTML5, CSS3, Bootstrap, jQuery

- Developing a comprehensive **Office Process Automation System** to digitize and streamline all administrative and procurement workflows across the institute.
- **Indent Management:** Online indent creation, multi-level approval routing, and tracking — eliminating paper-based requisitions.
- **Purchase Order System:** Automated PO generation with vendor details, item specifications, and approval chains.
- Integrated reporting and audit trails for full process transparency and accountability.
- Enabled institute staff to track indent status in real time, significantly reducing procurement turnaround time.

TECHNICAL SKILLS

Backend	PHP (Laravel, Core PHP), Core Java, Spring Boot (basic)	Frontend	HTML5, CSS3, JavaScript, jQuery, Bootstrap, React JS (basic)
Databases	PostgreSQL, MySQL pgAdmin	Version Control	Git, GitHub
Cloud	AWS (Amazon Web Services)	DevOps / Infra	Docker, Kubernetes
Operating Systems	Windows, Linux	Core Concepts	OOP, MVC, RESTful, APIs, DDL/DML/TCL/DCL, Joins, Aggregation

CERTIFICATIONS

- **Core Java**—OOP concepts: inheritance, polymorphism, method overloading/overriding, interfaces, constructors, upcasting/downcasting.
- **SQL**—DDL, DML, TCL, DCL commands; aggregate functions, GROUP BY, all join types (INNER, LEFT, RIGHT, FULL).

EDUCATION

Bachelor of Engineering (B.E.) – Mechanical Engineering	2019 – 2023
Rohini College of Engineering & Technology	Aggregate: 80%
