Laravel Developer | Lashron

Experience May 2024 - Present

- May 2024 - Present
 - Contributed to the development of the IGCAR Kalpakam Estimate Package, focusing on backend functionality using PHP and MySQL to streamline project estimation processes.
 - Developed and maintained the Billing Package for IGCAR Kalpakam, automating invoice generation and payment tracking systems using PHP, ensuring accuracy and efficiency.
 - Worked on back-end development, focusing on optimizing database queries and improving system performance.
- Ongoing Project
 - Worked on a IGCAR Kalpakam civil/ Electrical/ Mechanical engineering project for applications, focusing on accurate cost estimation and rate analysis. Managed detailed documentation and reporting, contributing to efficient project execution and cost control. Tools used for development frontend - HTML, CSS, Bootstrap. Backend - Laravel. DB - PostgreSQL.

IT EXPOSURE

I have a basic understanding of Core Java, including OOP concepts like method overloading, overriding, inheritance, polymorphism, and upcasting/downcasting. I am also familiar with constructors and interfaces. In SQL, I can write queries using DDL, DML, TCL, and DCL commands. I have experience with grouping, functions, and different types of joins.

EDUCATION

Bachelor of Engineering (B.E) in Mechanical Engineering

2019 - 2023

Rohini College of Engineering & Technology

80%
